

[Return to the ADE Page](#)

The Cumulative Adverse Drug Experience (ADE) Summaries database is being revised to make the information more transparent. The electronic reports from the database will be posted again as soon as they are available for viewing. Thank you for your patience.

If you seek information about an Adverse Drug Experience while the Cumulative ADE Summaries database reports are unavailable via the CVM Home Page, please submit a Freedom of Information (FOI) Act request to FDA in written form. CVM is not able to accept FOI requests via E-mail. Information on how to submit an FOI request can be found in the [Handbook for Requesting Information and Records from FDA](#).
